Kanse MCT OIL 100 % (0.5 L)

Definition and Indication: FOOD FOR SPECIAL MEDICAL PURPOSES.

For the dietary management of intractable epilepsy in a ketogenic diet, glucose transporter type 1 deficiency syndrome and pyruvate dehydrogenase deficiency and fat maldigestion and fat malabsorption, oxidation disorders of long chain fatty acids or other conditions requiring a source of MCT fats. MCT Oil 100% is a liquid containing a mixture of medium chain triglycerides (MCT).

Ingredients:

Vegetable oil 100% (medium-chain triglycerides from palm and coconut fat in varying proportions).

Important notice:

Must only be used under medical supervision. Suitable for infants, children and adults. For enteral use only. Not for parenteral use. Not to be used by individuals who do not have the specified disease. The MCT Oil 100% is not a source of essential fatty acids and fat-soluble vitamins. Not suitable as a sole source of nutrition.

Dosage:

To be determined by the clinician or dietitian and is dependent on the age, body weight and medical condition of the patient. MCT Oil 100% should be introduced slowly into the diet as rapid absorption of large intakes may cause vomiting or diarrhoea.

Contraindications:

MCT Oil 100 % should not be used if ketoacidosis/acidosis, decompensated liver cirrhosis, chronic kidney disease is suspected or in people with medium chain acyl-CoA dehydrogenase deficiency (MCADD).

Nutrition declaration	per 100 ml
Energy	3367 kJ 819 kcal
