

The Kanso MCT product selection is a high-quality source of MCT with advantages in fat profile, taste, practical application and more. Kanso MCT provides an beneficial energy source and is indicated in the dietary management of intractable epilepsy when using the ketogenic diet, long chain fatty acid oxidation disorders, fat malabsorption and maldigestion disorders.

Kanso DeliMCT *Tomato*

Description

Food for special medical purposes.

DeliMCT tomato is a tomato based, a high fat, low carbohydrate, semi-solid food with a 3:1 ratio of fat to carbohydrate and protein, containing medium chain triglycerides (MCT) and fibre. Suitable from 3 years of age onwards. With sugar and sweetener.

Indications

DeliMCT tomato is for the dietary management of intractable epilepsy in a ketogenic diet, pyruvate dehydrogenase deficiency, glucose transporter type 1 deficiency syndrome or other conditions requiring a ketogenic diet.

DeliMCT tomato can be recommended for the dietary management of the following conditions:

- Long chain fatty acid oxidation defects (FAOD)
- Fat malabsorption and maldigestion

Dosage and Administration

The dosage should be determined by the clinician or dietitian and is dependent on the age, body weight and medical condition of the patient.

Preparation Guidelines

DeliMCT tomato is ready to eat.

Can be used in permitted recipes, further serving suggestions and recipes are available on request.

Ingredients

Water, vegetable oil 29% (medium chain triglycerides from palm and coconut fat), tomato pulp 13%, potato fiber, sunflower protein, sea salt, paprika extract, basil leaves, acidity regulators: lactic acid, citric acid; oils (high oleic sunflower oil, red mandarin oil, rosemary oil, thyme oil), sweetener: saccharin.

Storage

DeliMCT tomato should be stored in a cool dry place. Once opened, tightly cover, keep refrigerated and use within 3 days.
